

D-PIMS is an evolution of our Premier Investment Monitoring Service (PIMS), therefore the portfolio performance graphs are based on the PIMS Portfolios, up to the point where D-PIMS commenced.

Please note that D-PIMS for Pensions has only been available since late 2007, however the Portfolios mirror our Investment Bond Portfolios that have been available since October 2004 allowing us to produce the theoretical past performance shown.

The value of investments can fall as well as rise. Past performance is no guarantee of future performance.
